Career Goals

I have always loved sports and books. This has helped shape who I have become and what I have wanted to become. I have seen people be super successful and a way people have made it big is entrepreneurship. I plan to work hard in high school, go to a great college which ultimately teaches me to be a great businessman. This is what I want to be because I feel it will be the best way to learn and make it big.

Strengths

I have a lot of strengths and characteristics that can help in this tough career. I am a very fair and persistent person. I will always try to go the farthest extent to get work done. I have been part of clubs like Future Business Leaders of America Boost to help learn about business cases and how to deal with them.

Achievements and Abilities

Some accomplishments I have gotten to this point are having great grades, winning MVP on a basketball team and helping feed food to the homeless. Some experience I have had is playing on a basketball team, being part of clubs and helping my dad at work. I have learned that work is very important and is not to ever be taken as lightly and always work my hardest.

Conclusion

All in all this is who I am and who I will try to be. I will always try to improve and get better. Thank you so much for reading this and very much appreciate any opportunities you can recommend me.
